LinkPast Solutions, Inc.

Project No. 15298-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING  
AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING  
APPLICATIONS

(May 9, 2023)

On January 25, 2023, LinkPast Solutions, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of hydropower on the Black River in Jefferson County, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Great Mills Hydro Project (Plant #1) would consist of the following: (1) a new 330-foot-long concrete gravity dam at the site of an existing breached dam; (2) an impoundment with an approximate surface area of 220 acres and a storage capacity of 1,100 acre-feet at a normal pool elevation of 609.05 feet National Geodetic Vertical Datum of 1929; (4) a new 85-foot-long by 65-foot-wide reinforced concrete powerhouse housing two or more axial flow vertical turbine-generator units with a total installed capacity of 5 megawatts; (5) additional new DIVE-turbine-generator (generator directly connected to the turbine shaft that can be completely submerged) units to utilize flows below the minimum or above the maximum hydraulic capacities of the main powerhouse; (6) a new 50-foot-long by 50-foot-wide switchyard; (7) two new access roads, one on the north and the other on the south shores of the river; (8) a new 2.23-mile-long, 115-kilovolt transmission line; and (9) appurtenant facilities. The proposed project would have an average annual generation of 24,500 megawatt-hours.

## MEMO

TO: HOME Consortium municipalities  
FROM: Samuel C. Wilson, Assistant Planner  
DATE: May 19<sup>th</sup>, 2023  
SUBJECT: North County HOME Consortium, Re-authorization for 2024-2026

In 1993 the Counties of Lewis, Jefferson, and St. Lawrence, along with 94 of the 115 municipalities contained within these Counties, organized a housing consortium known as the North Country HOME Consortium. The Consortium currently consists of 103 of the 110 municipalities in the counties. This collaborative effort began in order to access housing funds from the U.S. Department of Housing and Urban Development (HUD).

The HUD HOME Investment Partnership Program provides an annual allocation to the Consortium to benefit low and moderate income families for housing with funding for owner-occupied rehabilitation, first time homebuyer assistance, and rental rehabilitation. Local non-profit housing corporations and some municipalities apply directly to the Consortium to access these funds.

Since its creation, the Consortium has received nearly \$34 million. These funds have assisted over 1984 housing units throughout the region. Jefferson County serves as the "Lead Entity" on behalf of the other counties in coordinating with HUD on the operation of the Consortium.

The Consortium is required to be reauthorized every three years. Our three county Consortium has begun the necessary steps to be reauthorized by HUD and secure access to another three years of funding for 2024, 2025, and 2026.

Your municipality is currently a member of the Consortium by virtue of your community's approval of a reauthorization resolution and Cooperation Agreement in 2011. The Cooperation Agreement allows for the automatic renewal of the Consortium for the next three-year period.

HUD regulations require the Lead Entity to notify each Consortium jurisdiction of its right not to participate in the next three-year qualification period. If your municipality no longer wishes to participate in the North Country HOME Consortium for the 2024-2026 period, this office must receive written notification to that effect by June 23<sup>rd</sup>, 2023. Absent any written notification, your municipality's continued participation in the Consortium will automatically renew with no further steps required.

If you have any questions about the HOME Consortium or the reauthorization process, please feel free to contact me at (315) 785-3144 or Matt Taylor, Senior Project Development Specialist, DANC, at (315) 661-3200.

Thank you.

RE: Town of Huntington Voter's Identification Resolution

Dear Honorable Town Clerk Badour,

I hope that this finds you well. On May 9, 2023 the Huntington Town Board passed the attached resolution urging the New York State Legislature and Governor Hochul to draft and enact legislation regarding a voter's identification process. Please distribute this cover letter and attached resolution to the Town of Clayton Board Members.

The reason I sponsored this resolution, is that I was approached by various constituents of varying political affiliation about their concerns regarding the accuracy of voter rolls maintained by the of Board of Elections. In an economy where the Board of Elections may not have the funding or the staffing to regularly purge the voters rolls of individuals who may have relocated or have passed away, I believe that New York State needs to address the matter in a way that builds the public's confidence and ensures a fair election process. By urging our state representatives to work in a bipartisan manner to create a voter's identification process, this will allow for a fair and consistent procedure to keep voter rolls current and uphold the principles of democracy that the United States was built on.

I thank you for your time and cooperation with this matter, it's greatly appreciated. Please feel free to contact me at 631 351 3174 to discuss this matter further.

Warmest regards in the spirit of cooperation,

Councilman Eugene Cook

RESOLUTION URGING THE NEW YORK STATE LEGISLATURE AND GOVERNOR  
KATHY HOCHUL TO DRAFT AND ENACT LEGISLATION REGARDING A  
VOTER'S IDENTIFICATION PROCESS

Resolution for Town Board Meeting Dated: May 9, 2023

The following resolution was offered by: **COUNCILMAN COOK**

and seconded by: **COUNCILMAN BENNARDO**

WHEREAS, this country was formed on the principles of democracy and our forefathers fought for our right to elect our representation; and

WHEREAS, the majority of the states in the U.S. require a voter's identification to increase the public's confidence and ensure a fair election process; and

WHEREAS, the Board of Elections may not get notification of a voter registering in another location or of a death of a registered voter; and

WHEREAS, in an economy where the Board of Elections may not have sufficient funding or staffing to purge voters rolls of individuals who no longer live in each election district or county, as required; and

WHEREAS, in a day and age where the ability to work does not necessarily need to be where you live, this allows for more individuals to be transient in nature and the addition of voter's identification will assist in keeping all voter rolls current; and

WHEREAS, in the State of New York the requirement is to compare the signature on file, this doesn't necessarily help maintain current voter registration, as name and address changes are not necessarily communicated in the current process, also this would assist in the purging of the roles of individuals who are no longer active voters in that county; and

WHEREAS, the subject of the resolution is not an action as defined by 6 N.Y.C.R.R. §617.2 (b), and therefore no further SEQRA review is required.

NOW, THEREFORE,

THE TOWN BOARD

HEREBY REQUESTS the New York State Legislature and Governor Hochul to draft and enact legislation to allow for a voter's identification process to assist with maintaining voter's registration rolls; and

BE IT RESOLVED, that the Town Clerk is hereby directed to forward certified copies of this resolution to Governor Hochul, Andrea Stewart-Cousins, President Pro Tempore and Majority Leader, Carl E. Heastie, Speaker of the Assembly and the Huntington Delegation to the New York State Legislature: Assemblyman Steve Stern, Assemblyman Keith Brown, and Senator Mario Mattera.

**FORM 5 - NON-COLLUSIVE BIDDING CERTIFICATE**

- (a) By submission of this Bid, each Bidder and each person signing on behalf of any Bidder certifies, and in the case of a joint Bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his knowledge and belief:
1. The prices in this Bid have been arrived at independently without collusion, consultation, communication or agreement, for the purpose of restricting competition, as to any matter relating to such prices with any other Bidder or with any competitor;
  2. Unless otherwise required by law, the prices which have been quoted in this Bid have not been knowingly, disclosed by the Bidder and will not knowingly be disclosed by the Bidder prior to opening, directly or indirectly, to any other Bidder or to any competitor; and
  3. No attempt has been made or will be made by the Bidder to induce any other person, partnership or corporation to submit or not to submit a Bid for the purpose of restricting competition.
- (b) A Bid shall not be considered for award nor shall any award be made where (a) 1., 2., and 3., above have not been complied with; provided, however, that if in any case the Bidder cannot make the foregoing certification, the Bidder shall so state and shall furnish with the Bid a signed statement which sets forth in detail the reasons therefore. Where (a) 1., 2., and 3., above have not been complied with the Bid shall not be considered for award nor shall any award to be made unless the head of the purchasing unit of the political subdivision, public department, agency or official thereof to which the Bid is made, or his designee determines that such disclosure was not made for the purpose of restricting competition.
- (c) The fact that a Bidder (a) has published price lists, rates, or tariffs covering items being procured, (b) has informed prospective customers of proposed or pending publication of new or revised price lists for such items, or (c) has sold the same items to other customers at the same prices being Bid, does not constitute, without more, a disclosure within the meaning of paragraph (a) of this certification.
- (d) Any Bid hereafter made to any political subdivision of the State or any public department, agency or official thereof by a corporate Bidder for work or services performed or to be performed or goods sold or to be sold, where competitive Bid is required by statute, rule, regulation, or local law, and where such Bid contains the certification referred to in subdivision one of the section, shall be deemed to have been authorized by the board of directors of the Bid, and such authorization shall be deemed to include the signing and submission of the Bid and the inclusion therein of the certificate as to non-collusion as the act and deed of the corporation.

# TL12R2

# TOUGH, RUGGED, EFFICIENT

Hydraulic Lock

Quiet Ride Track Design

Active Power Control

HD Cooling Module

The TL12R2 features a radial lift loader arrangement, and demonstrates Takeuchi's continued commitment to product improvement and innovation. It features a completely redesigned operator's station with a 5.7" color multi-information display excellent feature set, and updated rocker switches that control a wide range of machine functions. Cab models have a smooth, low effort overhead door that improves entry and egress and enables the loader to be operated with the door in the raised or lowered position. An updated undercarriage with a wide block quiet ride track system provides better flotation, improved ride quality, and a reduction in noise and vibration.

A powerful, 111 horsepower engine meets the latest EPA Tier 4 emissions standards while delivering outstanding power and torque for impressive performance in the most demanding applications.

Equipped with the Takeuchi Fleet Management (TFM) telematics system critical information such as machine health, condition, diagnostics, and location can be viewed remotely providing valuable real time machine information that will help control costs and keep downtime to a minimum. The Takeuchi Fleet Management system is a real value as the service is free for the first two years of machine ownership.

Spacious operator's platform with easy to reach controls and switches.

## COMPACT TRACK LOADER

### FEATURES:

The Cat<sup>®</sup> 299D3 Compact Track Loader, with its vertical lift design, delivers extended reach and lift height for quick and easy truck loading. Its standard, suspended undercarriage system provides superior traction, flotation, stability and speed to work in a wide range of applications and underfoot conditions. The 299D3 features the following:

- **Industry leading sealed and pressurized cab option** provides a cleaner and quieter operating environment with excellent Work Tool visibility.
- **Available high-back, heated, air ride seat with seat mounted adjustable joystick controls** makes Cat Compact Track Loaders the industry leader in operator comfort.
- **High performance power train** provides maximum performance and production capability through the Electronic Torque Management system, standard two speed travel and an electronic hand/foot throttle with decel pedal capability.
- **High Flow XPS hydraulic system** is available for applications that demand maximum hydraulic work tool performance.
- **Electronically controlled Cat C3.8 engine** provides high horsepower and torque while meeting U.S. EPA Tier 4 Final and EU Stage IV emission standards.
- **Cat "Intelligent Leveling" system** provides industry leading technology, integration, and available features such as dual direction self level, work tool return to dig and work tool positioner.
- **Standard fully independent torsion axle suspension** combined with the optional Speed Sensitive Ride Control system improves operation on rough terrain, enabling better load retention, increased productivity and greater operator comfort.
- **Maximize machine capability and control** with the standard Advanced Display providing on-screen adjustments for implement response, hystat response, and creep control, multi-language functionality with customizable layouts, security system, and rearview camera.
- **Ground level access** to all daily service and routine maintenance points helps reduce machine downtime for greater productivity.
- **Broad range of performance matched Cat Work Tools** make the Cat Compact Track Loader the most versatile machine on the job site.
