RE: Charter Communications Notification

Dear Municipal Official:

This letter will serve as notice that on or around April 1, 2024, Spectrum Northeast, LLC ("Spectrum"), will launch carriage of Game Show Network (GSN) on channels 76, 88, 177 or 178 on Spectrum Select and Mi Plan Latino packages on the channel lineup serving your community.

If you have any questions about this change, please feel free to contact me at 212-379-5123 or via email at Alex.Camarda@charter.com.

Sincerely,

a. Cul

New York State Unified Court System

Hon. Joseph A. Zayas, J.S.C. Chief Administrative Judge

March 6, 2024

Supervisor Timothy Doney Town of Clayton 405 Riverside Drive PO Box 379 Clayton, New York 13624

Dear Supervisor Doney:

Section 2019-a of the Uniform Justice Court Act requires that town justices annually provide their court records and dockets to the auditing board of the town, and that such records then be examined, and that fact be entered into the minutes of the board's proceedings.

The Unified Court System's Division of Internal Audit Services is responsible for monitoring town board compliance with Section 2019-a. Accordingly, I am requesting that you provide a copy of the audit of your local court's records for fiscal year ending in 2023 and a copy of your board resolution acknowledging that the required examination was conducted. Please email the report and resolution to <u>tvauditcompliance@nycourts.gov</u> or mail to Daniel Johnson, Director of Internal Audit Services, NYS Unified Court System, 185 Jordan Road, Suite 1, Troy, NY 12180. Please respond by April 15, 2024.

If you have any questions, please contact Joan Casazza at (518) 238-4303 or at the email listed above. Thank you for your cooperation.

Very truly yours,

/smw

Town of Clayton, NY "dog warden not doing their job"

1 message

Town of Clayton, NY <support@townofclayton.com> Reply-To: amcavoy2208@gmail.com To: support@townofclayton.com Thu, Mar 14, 2024 at 8:47 AM

From: Angela Mcavoy <amcavoy2208@gmail.com> Subject: dog warden not doing their job

Message Body:

Our aunt and her dog was attacked on House Rd this week and her dog was killed. Your department was no help saying not to walk down the road so what is going to be done. The warden is definitely not doing their job that tax payers pay that service for them todo. The dog should be taken from the owners and put down before the next call you receive is that a child has been mauled by this animal and also the owners should be held accountable for the injuries she sustained trying to protect herself and her dog Charlie. She deserves justice for herself and her fur baby that was so tragically taken from her. thank you and hope that this isn't swept under the rug need to do better.

Congress of the United States House of Representatives Washington, DC 20515–3222

March 4, 2024

Lance Peterson 405 Riverside Drive Clayton, NY 13624-1024

Hello,

As we anticipate the upcoming Community Project Funding Process for Fiscal Year 2025, I'd like to offer an interim update on the state of our appropriations process.

As Congress continues to work finalizing appropriations for the remainder of FY24, we would like to invite our localities and non-profits in New York's 24th Congressional District to start organizing their requests for the FY25 appropriations cycle. While we do not yet have updated guidance from the House Appropriations Committee regarding the deadlines for the FY25 CPF process, we expect everything to move quickly once dates are announced. As a result, we are asking all organizations interested in applying for FY25 CPF funds to fill the form at https://tenney.house.gov/services/community-project-funding/community-project-funding-requests-fy25 to start organizing potential projects and keep updated with all developments.

The upcoming FY25 CPF process is an important opportunity for members of Congress to advocate for high-priority community projects in New York's 24th District. Instead of relying on bureaucrats to make critical funding decisions, this process provides transparency, accountability, and rigorous oversight with congressional input.

All CPF applications supported by our office must meet rigorous eligibility requirements, as outlined in the appropriations guidance. Additionally, applicants must exhibit robust community backing for projects and present a clear strategy using the funds in a timely manner. Our office collaborates with all grantees throughout the process to vet requests and ensure allocated funds are utilized responsibly and for their intended purpose. The CPF process is targeted and limited; it has historically been capped at .5% of federal spending and 15 submissions per member. It is therefore important that you put together the strongest possible application for funding.

Paid for by funds authorized by the House of Representatives

Washington DC 2349 Rayburn House Office Building Washington, DC 20515 (202) 225–3665 VICTOR, NY 7171 PITTSFORD-VICTOR ROAD, SUITE 210 VICTOR, NY 14564 (585) 869–2060 Oswego, NY 46 E. Brookfield Renewable Erie Boulevard Hydropower, L.P. 33 West 1st Street South Fulton. New York 13069 Tel 315.593.3118 Fax 315.598.4831 www.brookfieldrenewable.com

March 18, 2024

Via Electronic Filing

The Honorable Debbie-Anne A. Reese Acting Secretary Federal Energy Regulatory Commission 888 First Street, N.E. Washington, D.C. 20426

SUBJECT: Black River Hydroelectric Project (FERC No. 2569) Beebee Island Hydroelectric Project (FERC No. 2538) Draft License Application

Dear Acting Secretary Reese:

Erie Boulevard Hydropower, L.P. (Erie), a Brookfield Renewable company, is the Licensee, owner, and operator of the Black River Project (P-2569) and Beebee Island Project (P-2538), collectively referred to as the "Projects". The Black River Project and Beebee Island Project are located along the Black River in Jefferson County, New York. The Projects were relicensed by the Federal Energy Regulatory Commission (FERC or Commission) in 1996 and these licenses expire in 2026. Erie is pursuing a new license for the Project from the Commission using the Commission's Integrated Licensing Process (ILP). In accordance with 18 Code of Federal Regulations (C.F.R.) § 5.16(a), Erie is filing herewith the Draft License Application (DLA) for the Project.

The DLA is composed of three volumes, as described below. Exhibit E – Environmental Report contains Licensee's analysis of the effects of the Proposed Action, relicensing the continued operation and maintenance of the Project. Based upon the analysis of the effects of the Proposed Action on developmental and non-developmental resources, Licensee is proposing to continue the fundamental operation of the Project as discussed in detail in Exhibit E.

The Draft License Application consists of the following:

VOLUME I OF III

- Executive Summary
- Initial Statements Required by 18 CFR § 4.51(a)
- Additional Information Required by 18 CFR § 5.18(a)
- Verification Statement
- Exhibit A Project Location and Facilities
- Exhibit B Description of Plant Operations
- Exhibit C Construction of Existing Facilities

Black River Hydroelectric Project (FERC No 2569) Beebee Island Hydroelectric Project (FERC No 2538) Draft License Application March 18, 2024 Page 2

- Exhibit D Costs and Financing
- Exhibit F Project Description
- Exhibit G Project Maps
- Exhibit H Ability to Operate

VOLUME II OF III (Public)

- Part 1 Exhibit E Environmental Report
- Part 2 Exhibit E Appendices

VOLUME III OF III (CRITICAL ENERGY INFRASTRUCTURE INFORMATION (CEII))

- Exhibit F General Design Drawings
- Exhibit F Supporting Design Reports
- Exhibit H Single-Line Electrical Diagram

Erie notes that study reporting required by the Commission is ongoing. Erie anticipates filing a study report package in Quarter 1 of 2024, and Erie will file the remaining completed study reports with the Updated Study Report on or before June 9, 2024.

Certain information within the DLA is still under development or more appropriately filed with the Final License Application (FLA) in Q3 2024. Additionally, proposals presented in the DLA are preliminary.

Erie is making the DLA available to resource agencies, Indian tribes, local governments, nongovernmental organizations, and members of the public who are on the Project distribution list. An electronic copy of the DLA can be downloaded from FERC's eLibrary system (<u>https://elibrary.ferc.gov/idmws/search/fercgensearch.asp</u>) by searching under docket numbers P-2569 and P-2538.

In accordance with 18 CFR § 5.16(e), interested parties may file comments regarding the DLA within 90 days of the date of this letter. All comments must be filed with FERC at the following address:

Hon. Debbie-Anne A. Reese, Acting Secretary Federal Energy Regulatory Commission 888 First Street. NE Washington, D.C. 20426

If you have any questions regarding this filing, please feel free to contact me at (315) 598-6130 (Steven.Murphy@BrookfieldRenewable.com). Black River Hydroelectric Project (FERC No 2569) Beebee Island Hydroelectric Project (FERC No 2538) Draft License Application March 18, 2024 Page 3

Sincerely,

Dr. P. Murphy.

Town Clerk Megan Badour

Dear Town Board Members,

Please find documents that help support a more drinkable, swimmable and fishable Upper St. Lawrence River. Dealing with human waste is the biggest issue. Many of us hold this precious watershed in great esteem. To ensure its cleanliness, despite climate change, we need to address septics in some manner. Inspected septics, sewer installations or some conglomeration of these, on the mainland and islands throughout the township.

method or methods are you considering? Here are some of my federal, few state fundings possibilities. I am not a grant writer but assume there's At my first meeting with Zoning and Planning, it was graciously suggested I find some means to help fund this venture. But honestly, what some way once this board decides.

Queensbury Septic Owner Transfer.doc

And if you want to address future septic issues when properties exchange hands:

And since flooding was my initial concern of 2017 and 2019, have we adopted and/or considered using or following some of these suggestions

8

ß

townwide: ^{Septi}

Yep lots to digest but clean water is worth this effort. Thank you and looking forward to some serious decision making about septics, clean water and flooding.

Janet Bundais

Janet Burrows

PS I need a gal like Megan to teach me how to place my virtual signature and oh so much more.

Grants/ Means to Support Septic inspections

FACT SHEET: Biden-Harris Administration Announces Nearly \$6 Billion for Clean Drinking Water and Wastewater Infrastructure as Part of Investing in America Tour | The White House Great Lakes Restoration Initiative (GLRI) | US EPA Local Infrastructure Investment Stories | US EPA

Improving Wastewater and Sanitation Infrastructure

 Today, EPA is announcing over \$2.6 billion through the Clean Water State Revolving Fund for a range of projects to improve wastewater, sanitation, and stormwater infrastructure, bringing the total funding announced for this purpose to \$7 billion.
 Inadequate wastewater or sanitation systems put communities' health at risk, and in total, the Bipartisan Infrastructure Law invests nearly \$13 billion in wastewater funding to expand and upgrade these critical systems across the country.

Clean Water, Clean Air and Green Jobs Environmental Bond Act (ny.gov)

DEC Releases Environmental Bond Act Draft Eligibility Guidelines for Climate Smart Communities Grant Program Projects

⁹.a.: ,

Draft Guidelines Now Available for Public Comment Through April 12, 2024

The New York State Department of Environmental Conservation (DEC) today released for public comment proposed new eligibility guidelines to support projects funded through the State's successful Climate Smart Communities (CSC) grant program under the historic \$4.2 billion Clean Water, Clean Air and Green Jobs Environmental Bond Act of 2022. The guidelines will support the State's Climate Leadership and Community Protection Act mandate to reduce greenhouse gas emissions 85 percent by 2050 and help communities prepare for the effects of climate change.

"Thanks to Governor Hochul's leadership, DEC's Climate Smart Communities program is helping New York's municipalities mitigate climate change and strengthen community resiliency," **said Commissioner Seggos**. "These investments through the Bond Act will help reach Governor Hochul's aggressive climate action goals, and support locally led efforts to reduce climate-altering emissions, especially from organic wastes and refrigerants, and strengthen local infrastructure. I commend DEC's experts for developing these guidelines and encourage all interested stakeholders to review and provide comments so we can move this important funding forward."

The CSC grant program is a competitive statewide grant program open to local governments to support the implementation of climate change mitigation and adaption projects. Bond Act funding may only be used for certain capital projects. Other activities eligible for CSC grants may be eligible for State Environmental Protection Fund (EPF) investments. DEC will use public input on these draft eligibility guidelines to inform development of the Bond Act-funded CSC grant program.

The draft eligibility guidelines available for comment enable the public to provide input on the implementation of Bond Act funding as part of the \$400 million directed towards 'Climate Change Mitigation.' Once finalized, the criteria will guide funding allocations DEC will use to select Climate Smart Community projects.

The CSC grant program makes awards of between \$50,000 and \$2 million each to support locally administered projects to adapt to climate change and mitigate greenhouse gas emissions outside the power sector, as described below. Since the program's inception, DEC has awarded more than \$60 million from the EPF to municipalities in support of local climate mitigation and adaptation projects. Bond Act resources will augment ongoing EPF funding, with grant opportunities made available via the same request for applications.

Eligible projects in the mitigation category must reduce greenhouse gas emissions outside the power sector. Eligible greenhouse gas mitigation project types include, but are not limited to the following:

- Construction of on-road or off-road facilities for non-motorized forms of transportation that facilitate commuting or access to daily needs (recreational trails are not eligible);
- · Construction of new, or expansion of existing, facilities to process food scraps;
- Establishing and implementing easily replicated renewable energy projects, including solar arrays, heat pumps, and wind turbines in public low-income housing;
- Reducing fluorinated greenhouse gas emissions from refrigeration, chillers, and airconditioning equipment through replacement or retrofit; and
- Land acquisition (in-fee) required to implement the proposed greenhouse gas mitigation project (excludes acquisition by eminent domain).

Eligible climate change adaptation project types include, but are not limited to, the following:

- Increasing or preserving natural resilience, such as construction of living shorelines and other nature-based landscape features to decrease vulnerability to the effects of climate change;
- Flood-risk reduction, including but not limited to, strategic relocation or retrofit of climate-vulnerable critical municipal facilities or infrastructure to reduce future climate change-induced risks to those facilities;
- Replacing or right-sizing flow barriers;

1

- Extreme-heat preparation, including but not limited to construction of cooling centers and permanent shade structures;
- Emergency preparedness, including but not limited to, purchase and installation of emergency warning systems; and
- Land acquisition (in-fee) required to implement the proposed climate change adaptation project (excludes acquisition by eminent domain).

Disadvantaged Communities The Bond Act requires that disadvantaged communities shall receive no less than 35 percent, with the goal of 40 percent, of the benefit of total Bond Act funds (\$4.2 billion). Disadvantaged communities are those identified by the Climate Justice Working Group, pursuant to the <u>Climate Leadership and Community</u> <u>Protection Act</u>. DEC has established a 40 percent goal for the CSC grant program consistent with this Bond Act requirement and will aim to prioritize 40 percent of CSC grant awards to benefit disadvantaged communities.

The full eligibility guidelines are available in today's <u>Environmental Notice Bulletin</u>. Public comments on the draft guidelines may be submitted in writing to: Myra Fedyniak, Office of Climate Change, NYS DEC, 625 Broadway, Albany, NY 12223-1030 P: (518) 402-8448, Email: <u>cscgrants@dec.ny.gov</u> (Place "Bond Act" in the subject line).

Public comments will be accepted through Friday, April 12, 2024.

New York's Clean Water, Clean Air and Green Jobs Environmental Bond Act of 2022 On Nov. 8, 2022, New Yorkers overwhelmingly approved the \$4.2 billion Environmental Bond Act. State agencies, local governments, and partners will be able to access funding to protect water quality, help communities adapt to climate change, improve resiliency, and create green jobs. Bond Act funding will support new and expanded projects

across the state to safeguard drinking water sources, reduce pollution, and protect communities and natural resources from climate change.

Since the Bond Act passed, an inter-agency working group comprised of multiple state agencies has been implementing a transparent and collaborative process to identify needs for environmental funding across the state to help develop program logistics. In the last year, the state announced a \$200 million funding investment toward the state's existing Water Infrastructure Improvement and Intermunicipal Grant programs, \$100 million available for zero-emission school buses, \$100 million available for Clean Green Schools, \$2 million investment to protect existing park infrastructure at Cedar Beach on Long Island to protect communities from extreme weather, \$13.1 million to support construction of the Adirondack Rail Trail, and State-administered forestry projects to plant 25 million trees by 2033. Find more Bond Act-related information and sign up for progress updates.

State Septic System Replacement Program

Program Summary

The Clean Water Infrastructure Act of 2017 (L. 2017, c. 57, Part T) established the Septic System Replacement Fund to provide a source of funding for the replacement of cesspools and septic systems in New York State. This grant program (the "Program") seeks to reduce the environmental and public-health impacts associated with the discharge of effluent from cesspools and septic systems on groundwater used as drinking water, as well as threatened or impaired waterbodies.

The state Department of Environmental Conservation ("DEC") and the state Department of Health ("DOH") have determined priority geographic areas where the Program will provide grants for eligible septic system projects. An area's designation as a priority is based on its vulnerability to contamination (e.g. the presence of a sole-source aquifer, or a known water-quality impairment), population density, soils, hydrogeology, climate, and reasonable ability for septic system projects to mitigate water quality impacts. Under the Program, counties in which priority geographic areas are located can access monies from the Fund to provide grants to reimburse property owners for up to 50% of the eligible costs (up to a maximum of \$10,000) of their eligible septic system projects.

The Program provides grants for eligible "septic system projects" involving:

- the replacement of a cesspool with a septic system, or
- the installation, replacement or upgrade of a septic system or septic system components, or installation
 of enhanced treatment technologies, including an advanced nitrogen removal system.

Overview

DEC and DOH have identified priority geographic areas for the replacement of septic systems, and allocated funding to counties from the Fund. Counties that have priority areas within their boundaries, and choose to participate in this program, are called "Participating Counties."

Participating Counties notify owners of property served by septic systems (including residences and small businesses) that they could be eligible for financial assistance from the Septic System Replacement Program. Once notified, property owners who undertake a septic system project may apply to the Participating County for a grant from the Program.

Participating Counties review and evaluate the applications and determine financial assistance awards based on the Program criteria and consideration of a property's location in relation to a waterbody, impacts to groundwater used as drinking water, and the condition of the property owner's current septic system. Participating Counties may set graduated incentive reimbursement rates for septic system projects to maximize pollution reduction outcomes. Septic system projects located in a priority geographic area identified by DEC as threatened or impaired by nitrogen must reduce nitrogen levels by at least 30% to receive assistance.

After evaluating applications and making funding decisions, Participating Counties notify the property owners of their grant awards by sending them award letters that include the amount, and other terms and conditions, of the grant. Property owners must formally accept the grant award and its terms and conditions by signing and returning the letter to their participating counties, after which property owners may proceed and hire design professionals and contractors to complete the work on their septic system projects.

As the Program provides funding on a reimbursement basis, property owners are initially responsible for the total cost of their septic system projects. Property owners may also choose to have the reimbursement paid directly to their contractors, which could reduce their out-of-pocket costs.

To receive reimbursement, property owners submit a reimbursement request to the Participating County in which they are located upon completion of their septic system projects. Reimbursement requests must include:

(i) the completed Reimbursement Request form;

(ii) any applicable design approval for the septic system project;

(iii) description of all work completed;

(iv) cost documentation and invoice or invoices for eligible costs; and

(v) if applicable, a written authorization for a septic system contractor directly to receive the property owner's reimbursement.

Participating Counties review the reimbursement requests, and approve, adjust or deny them, as appropriate. No more often than once a month, Participating Counties aggregate the reimbursement requests they've received, and certify that amount in a disbursement request to the Environmental Facilities Corporation ("EFC"), which administers the Septic System Replacement Fund. EFC reviews the disbursement requests and once it is confirmed that all necessary documentation has been received and verified, disburses monies from the fund to the participating counties, which then issue reimbursement payments to property owners or their contractors for their completed septic system projects.

Flooding and Septics

Protect your water after a natural disaster or emergency

Flooding, earth quakes, landslides, and other natural disasters can impact the safety of your drinking water by allowing contaminants to enter your private well system. If you suspect your drinking water well may be contaminated after a flood or another natural disaster, contact your local or state health department or environmental agency for advice on inspecting and testing your well. If possible, use a contractor with experience in servicing drinking water wells to inspect and test your well.

Water well flood response steps

- Stay away from the well pump while flooded to avoid electric shock.
- Do not drink or wash from the flooded well to avoid becoming sick.
- Get assistance from a well or pump contractor to clean and disinfect your well before turning on the pump.
- After the pump is turned back on, pump the well until the water runs clear to rid the well of flood water.
- If the water does not run clear, get advice from the county or state health department or extension service.

EPA provides more specific steps for well owners to follow in its short guide <u>"What to</u> <u>do After the Flood"</u>.

Water well natural disaster and emergency response

Flooding is a common cause of private well contamination. However, there are other emergencies which can impact well water safety. The Center for Disease Control (CDC) has a website dedicated to <u>preparing for, responding to, and surviving</u> natural disasters and severe weather.

Helpful CDC pages for well owners:

- Disinfecting wells after a disaster
- Disinfection of drilled or driven wells after an emergency
- Disinfection of bored or dug wells after an emergency
- General water and food safety emergency preparation and response

- Dealing with flood water safely
- Information on other types of emergencies
- Private Wells Home

- Protect Your Home's Water
- Learn About Private Water Wells
- Well Water Contaminants

Town of Clayton Regular Meeting Minutes

Wednesday, March 13, 2024

The Town Board of the Town of Clayton held their regular meeting at 5:00 PM, at Cerow Recreation Park Arena, located at 615 East Line Rd., Clayton, NY.

The following persons attended:

Timothy Doney	Kenneth Knapp	Megan Badour	James Jones
James Kenney	Donna Patchen	Steve Dorr, Sr.	Karen Lago
Mari Cecil	Cynthia Brenon	Rick Spencer	Justin Taylor
Mariah LaClair	Tippi Haag Olson	Savarah McCargar	Rylee Babcock

1. Pledge of Allegiance: Supervisor Doney opened the meeting with the Pledge of Allegiance

- 2. Guests: N/A
- 3. Town Clerk:
- A. Correspondence:
 - 1. Municipal Energy Management (see attached)
 - 2. Volunteer Transportation Center, Inc. (see attached)
 - 3. Pivot (see attached)
 - 4. Citizens Against Solar Petition (see attached)
 - 5. AES Northeast letter (see attached)
- B. Minutes:
 - 1. Minutes from the 2/28/2024 Regular Meeting approved by Kenneth Knapp, seconded by James Kenney. **Motion carried.**
- 4. Public: N/A
- 5. General Discussion Items:
 - A. Bills and Transfers:
 - i. Abstract #3 of 2024

Motion was made by Donna Patchen, seconded by Kenneth Knapp, to approve Abstract #3, in the amount of \$302,137.79. **Motion carried.**

- ii. Transfers: N/A
- iii. Budget Amendment: N/A

iv. New Accounts/Special Entries: N/A

B. Supervisor's Report & Bank Reconciliations:

Motion was made by James Kenney, seconded by Donna Patchen to approve the Supervisors report for February 2024. **Motion carried.**

- C. Balance Sheets: February 2024
- D. <u>Resignations; Appointments & Rate Changes:</u>
 - i. Resignations: N/A
 - ii. Positions/Appointments: N/A
 - iii. Rate Changes: N/A

E. <u>Training:</u>

i. Annual Safety Training Workshop tentatively scheduled for April 30, 2024.

ii. 2024 AOT Finance School: Motion was made to approve the attendance of Savarah McCargar and Mariah LaClair for the 2024 AOT Finance School with a registration fee of \$200 per person plus hotel fees by Kenneth Knapp, seconded by James Kenney. **Motion carried.**

F. <u>Public Hearing on Local Law 1, 2024, Electronic Filing of Complaints on Assessments for</u> <u>Administrative Review:</u>

Motion was made by Kenneth Knapp, seconded by James Kenney to open the Public Hearing for Local Law no. 1 @ 5:15pm.

- a. Justin Taylor: Mr. Taylor addressed the Board and citizens in support of Local Law #1 of 2024: Electronic Filing of Complaints on Assessments for Administrative Review. Mr. Taylor explained how this process will ease the burden of submission for tax payers and provide a central location for the process. Motion to close Public Hearing for Local Law no. 1 of 2024 @ 5:20pm made by Kenneth Knapp, seconded by Donna Patchen. Motion carried.
- b. Resolution 40 of 2024: A Resolution to adopt Local Law #1 of 2024: Electronic Filing of Complaints on Assessments for Administrative Review: Motion to adopt Resolution #40, A Resolution to adopt Local Law #1 of 2024: Electronic Filing of Complaints on Assessments for Administrative Review introduced by Kenneth Knapp, seconded by James Kenney. Patchen-aye; Kenney-aye, Knapp-aye, LaClair-absent, Doney-aye. Passed

G. Purchase: Cerow Recreation Park Concession: Refrigerator:

Motion was made by Kenneth Knapp, seconded by James Kenney to purchase the refrigerator from KaTom Restaurant Supply for \$2,199.00 by Kenneth Knapp, seconded by James Kenney. **Motion carried.**

H. Guardino Carnival:

Motion made by James Kenney seconded by Kenneth Knapp to approve the use of the arena for an end of the year carnival for Guardino students, waving the \$1/person fee. **Motion carried**. I. <u>Tractor Purchase</u>:

Motion made by Donna Patchen, seconded by Kenneth Knapp to approve the purchase of a John Deere tractor from Cazenovia Equipment in the amount of \$65,293.14 and mower from Tracey equipment in the amount of \$12,394.00. **Motion carried.**

6. Supervisor's Report: N/A

7. Department Head Reports:

A. Highway Superintendent: Steve Dorr- Crew is working on maintaining equipment, cutting trees and hauling sand. Effective April 1, the crew will shift to 4-10 hr days.

B. Buildings & Grounds: James Jones- Ice has been removed from the arena, glass and boards have been stored.

C. Assessor: Alexander Marchenkoff- N/A

D. Codes/Zoning: Richard Ingerson-See attached

8. Council Reports

• Councilman Knapp: April 23, 2024 there will be a Nature Talk at the Depauville Library. Depauville FD will host a Chicken BBQ March 17, 2024. Hawn Library is hosting a Peeps contest as well as a tax assistance program March 19, 2024 and a Won't You Be My Neighbor event on March 20, 2024. Job expo scheduled for March 26, 2024 at the hotel.

- Councilwoman Patchen: N/A
- Councilman Kenney: Planning Board is developing a committee to further process short term rentals.
- Councilwoman LaClair: Absent

9. Public:

Karen Lago: Ms. Lago presented on the Rights of Nature. A Draft Resolution was presented and asked to be discussed for consideration.

10. Adjournment:

Motion was made by Kenneth Knapp, seconded by Donna Patchen to adjourn at 5:32 PM. Motion carried.

Next Meeting: Wednesday, March 27, 2024 at 5:00PM.

Town of Clayton Attn: Megan Badour 401 Mary Street Clayton NY 13624

Re: Town Justice accounts

Dear Megan:

Rebecca Kinnie was in and opened the Justice accounts however there are a couple of forms that we need your signature and Tim Doney's on.

The first is a Corporate Resolution just stating at least 2 people that have authority for the Town of Clayton to give Rebecca permission to open accounts under the Town. If you and Tim could both sign this form in 2 places, I would appreciate it. If you don't see Tim that often, please feel free to return it to me and I can follow up with him.

The second form is a subsidiary letter, actually giving Rebecca authorization to use the Town of Clayton tax ID to open the justice accounts. Would you please sign this letter authorizing that?

I am enclosing a self addressed, stamped envelope to return the documents to me for your convenience. If you have any questions, please feel free to contact me.

Thank you.

Sincerely,

Kelly Winters Retail Branch Assistant 205 State Street Clayton NY 13624 P: 315 686-5551 F: 315 686-0035 E: Kelly.winters@cbna.com
